

Competitive Impact profiles in 2018

THE VERY DISTINCT COMPETITIVE IMPACT™ (CI) DECILE PROFILES OF THE GLOBAL AND THE SWISS BIOTECH PATENTS EXPLAIN THE DISCREPANCY BETWEEN GROWTH PROFILES FOR PORTFOLIO SIZE AND PAT. THE GLOBAL PORTFOLIO SPREADS WIDELY ACROSS ALL 10 DECILES, AND ONLY 16% OF THE GLOBAL PORTFOLIO BELONGS TO THE HIGHEST CI DECILE 10, ALSO REFERRED TO AS 'WORLD-CLASS PATENTS' (HIGHLIGHTED BY FRAME IN THE GRAPH). WITHIN GLOBAL BIOTECH ONLY RED BIOTECH DISPLAYS A SLIGHT SHIFT TOWARDS THE HIGHER CI CLASSES. IN CONTRAST, THE SWISS PORTFOLIO - IN RED, WHITE AND GREEN BIOTECH - CONCENTRATES MOSTLY IN THE HIGH CI DECILES, WITH 53% IN QUALIFYING AS WORLD-CLASS PATENTS
