

INVITATION

MassChallenge Switzerland 2022 Awards

Again this year, we will reward 12 winners out of the 107 startups who joined our acceleration program. The whole 2022 cohort is climate responsible, and we want to celebrate their efforts in progressing their businesses, moving forward with sustainability, and addressing the world's biggest challenges with their innovative solutions.

We'd love you to join us on **Thursday 27th of October in Lausanne** and celebrate the most innovative, highest impact startups worldwide!

MassChallenge Switzerland was launched in 2016 as a non-profit startup accelerator with a mission to help entrepreneurs add value to society. Together with our corporate partners, and expert volunteer community we've created the capability and know-how and made a massive difference awarding over 2M CHF in non-dilutive no-strings attached cash prizes to the very best startups. Our proven model has accelerated 568 startups who have gone on to raise \$651M, generating sales of \$150M and creating 16,000+ jobs.
